What ?

Premium Yemen is an exclusive Asapspot service dedicated to Yemeni current issues. It aims at providing real-time access to the most up-to-date, accurate sources available on the Internet.

Why ?

Premium Yemen targets analysts, researchers, students, journalists and executives who are looking for reliable sources to help form or bolster their opinions, or devise strategies.

Sources

Premium Yemen indexes sources on ongoing affairs and on forthcoming events. We also provide historical background to complex present-day questions.

We make use of all available sources, in so far as they serve the understanding of issues of interest:

official authorities, political parties, militant movements, IO's, NGO's, the media, academic research and so on.

Editorial policy

For us, an accurate analysis means taking into account the bigger picture, for which it is necessary to draw on more wide-reaching sources.

Premium Yemen presents a broad spectrum of Yemeni news and analysis and takes care to provide a balanced view.

Experts network

Premium Yemen works through a worldwide network of international affairs experts.

Our experts are highly qualified observers of Yemeni issues and, more broadly, of the Middle East area and the Arab peninsula. Every business day, we retrieve, read, select and index the best sources on key current events. The selected material is then checked by the senior Editor in Chief before publishing.

Sources

Premium Yemen gives access to news, analysis and fact and data sources. We monitor several hundred sources on a daily basis, from the most recognized news media, periodicals, research centers, think tanks, Governmental agencies, IOs and NGOs.
